				Mr. J. E. White states, the natives did not come on board early in the morning as ordered. Went on shore at 10 a.m., and found the smelting house deserted. Took Mr. Ashwell to the "Falcon," and reported to Captain Parkin, R.N., that the natives had left the Smelting House. Went in the "Falcon's" boat to the North Harbour, and seeing all the cultivations deserted, concluded that the natives had deserted. Came on board the Hulk at 1 p.m. Made preparations, and left for Auckland in the "Falcon's" cutter. Arrived at Auckland at 9 p.m., and reported the circumstance to His Excellency the Governor.
