

THIRD ANNUAL REPORT OF

The remainder of the seedlings have been pricked out in lines, and sheltered with brush fencing.

Purchase of Plants.—The item for purchase of plants, is chiefly for choice *Coniferae*, that were selected by Mr. Ludlam in Australia, and sent from there in excellent order, so that most of them could be at once planted out.

30th August, 1872.

JAMES HECTOR.

LIST of PLANTS planted in the Botanic Gardens during 1871-72.

Description.	No. on Label.	No. of each variety planted.	Habitat.	Description.	No. on Label.	No. of each Variety planted.	Habitat.
