Drawing.—In pursuance of an arrangement made with the Governors of Canterbury College towards the end of 1882, weekly drawing-classes have been held in the School of Art for the instruction of the normal school students, and of teachers and pupil-teachers in the Board's service. 'students attend on Friday from 2 to 4 p.m.; the teachers on Saturday morning, from 11 to 1 average attendance of teachers during the year was 125. The course of instruction includes freehand drawing, practical geometry linear perspective, model drawing, and black-board drawing. Examinations are held at the end of the year, and the Board has suggested to Government that the certificates given by the School of Art might be accepted as equivalent, in the subject of drawing, to the requirements of the teachers' examination. The Board desires again to commend this suggestion to their attention.

The number of candidates examined was 43: viz., in Class A, 14 (under eleven years of age), 8 boys and 6 girls in Class B, 11 (under twelve years of age) 6 boys and 5 girls in Class C, 12 (under thirteen years of age), 10 boys and 2 girls in Class D, 4 (under fourteen years of age all boys, in Class E, 2 (under fifteen years of age) 1 boy and 1 girl.
