

Table No. 12.

LIST of the PUBLIC SCHOOLS in the several EDUCATION DISTRICTS, with the Number of Teachers' and Custodians' Houses, the Area of each School, and the Attendance of the Pupils, for Year 1884.

NOTE 1.—In column 3 dimensions of buildings not belonging to Boards are entered within parentheses, thus ().

NOTE 2.—In the case of a school not open during all the four quarters of the year, the figures in the "Whole Year" average column represent the average attendance for the period within the year during which the school was actually open, and consequently the exact average of the four quarters' attendance for the whole of an education district in which all the schools were not open during the entire year is less than the sum of the "Whole Year" average column. In the total of each education district both results are shown, the upper line giving the sum of the column, the under line representing the exact total average of the four quarters.
