9. Special instruction in elementary science has been given, by lectures and in laboratories, to teachers employed by the Auckland Board of Education and to students of the Auckland Training College—viz., in chemistry and physics by Professor Brown; and in botany, with especial reference

to agricultural practice, by Professor Thomas.

10. In July, 1887, the College Council learned that the Auckland Board of Education, having procured for the primary schools a considerable amount of scientific apparatus, which had been selected for the Board by Professor F. D. Brown, found difficulty as to storing and distributing it. The use of a room in the building occupied by the College in Eden Street was granted by the Council for that purpose at Professor Brown's request, and the distribution and loans of the apparatus have been managed by him, aided by his laboratory-assistant.

11. An audited statement of the accounts of the College for the year 1887 has been forwarded.

I have, &c.,

G. MAURICE O'RORKE,

Chairman.

The Hon. the Minister of Education.

RECEIPTS and EXPENDITURE of the AUCKLAND UNIVERSITY COLLEGE for the Year ending 31st December, 1887.
