a Not previously valued.

b The average deficiency in the District Funeral Fund must be added to the average deficiency in each branch in order to find the total average deficiency.

c If the average deficiency in the District Funeral Fund be subtracted from these values a net deficiency results.

d If the average deficiency in the District Funeral Fund be subtracted from this value a net surplus of £1-07 remains.

e This deficiency relates to the Sick Fund only, the Funeral Fund being held by the Grand Lodge in Victoria. As to the position of this latter fund, see paragraph 54 of this report.

f The average deficiency in the District Funeral Fund must be subtracted from this value to find the net average surplus.

g No information.

h The average deficiency in the District Funeral Fund must be added to the values in this column to find the total average deficiency.

i Imperfect information.
