WELLINGTON COLLEGE AND GIRLS' HIGH SCHOOL.

1. REPORT OF THE BOARD OF GOVERNORS.

The Governors of the Wellington College and Girls' High School have to report that the two institutions under their charge continue to do good work. The College has suffered a slight diminution in the number of pupils, due, it is believed, to the great improvement in the primary schools of late years, to the establishment of St. Patrick's College, and to the success of the Wanganui Collegiate School. Both these, being denominational schools, naturally attract a large number of pupils.

That the tuition at both institutions is good is evidenced by the result of the late University examinations. The College sent up nine pupils for the junior scholarship examination, four pupils for the matriculation examination, and one for the medical preliminary, and all passed. From the Girls' High School seventeen girls were presented, of whom fifteen were successful: eleven passed the matriculation examination, two matriculated on the junior scholarship papers, and two passed the junior scholarship examination "with credit."

The Governors have again to report being greatly hampered by want of funds, chiefly brought about by their having been compelled to borrow moneys for the erection of buildings, and being therefore under the necessity of paying a large sum annually for interest—a position in which no other similar Board in the colony is placed. They are bringing the matter again before Government, with the hope that the pledge given by Sir R. Stout, when Premier and Minister of Education, may be fulfilled.

Wellington, 27th March, 1890.

J. R. BLAIR, Chairman.
