

CONTENTS—*continued.*

Description of the Beds at Localities examined— <i>continued.</i>		Page	Varieties of Auriferous Wash-drift— <i>continued.</i>		Page
Dunback to Taieri Peak	30		(c.) The Newer Quartz Drifts	34	
Pleasant River	30		(d.) The Newer Breccia Conglomerate	34	
Macgregor's Creek: Road from Palmerston to Foot of the Horse Range	30		(e.) "Maori Bottom" (Sandstone Gravels)	34	
South-west Slopes of the Horse Range	30		(f.) Old Lake Margins (Lakes Hawea, Wanaka, and Wakatipu)	34	
Trotter's Creek	31		(g.) Recent Alluviums	35	
Kartigi Beach	31		(h.) Sea-beach Deposits	35	
Moeraki Beach	31		The Quartz Drifts and Breccia Conglomerates a Source of Gold to more Modern and Recent Deposits	35	
Kauroo Creek to the Gorge of the Kakanui	31		Lower Breccia Conglomerates	36	
Windsor, Ngapara, and Upper Part of Waiareka Creek	31		Quartz Drifts	38	
Livingstone	31		Newer or Fresh-water Series of Quartz Drifts	41	
North Side of the Maerewhenua Valley, opposite Livingstone	31		Newer Breccias and Newer Quartz Drifts	42	
Otekaieke Valley	31		"Maori Bottom" (Sandstone Gravels)	42	
Otiake River to Kurow	31		Faults	43	
Awakino Valley	32		Fault No. 2 (the Great Clarence Fault)	43	
Switzer's	32		Fault No. 14 (the Nevis Valley Fault)	44	
Muddy Creek	32		Fault No. 15 (Mount Pisa Fault)	44	
Waikaka	32		Fault No. 16 (Clutha Valley Fault)	44	
Mackenzie	32		Fault No. 13 (the Tuapeka Fault)	44	
Landslip Hill	32		Fault No. 17 (Conroy's Gully Fault)	44	
Knapdale (McNab's Run)	32		Fault No. 18 (the Manuherikia Fault)	45	
Classification and Sectional Relationship of the Strata examined	32		Fault No. 19 (Hill's Creek Fault)	45	
Classification for Geological Map of Otago Gold- fields	32		Fault No. 20 (Blackstone Hill Fault)	45	
Table of Formations occurring within the Otago Goldfields	33		Fault No. 21 (Hawkdun Fault)	45	
Varieties of Auriferous Wash-drift	34		Fault No. 11 (the Kyeburn Fault)	45	
(a.) The Older Breccia Conglomerate	34		Fault No. 12 (Waihemo Fault)	45	
(b.) The Older Quartz Drifts	34		The Auriferous Drifts considered in Relation to the Changes of Level and Disturbances by Faulting that have taken place since their Deposition	45	
			Conclusion	47
