

330 passed the Matriculation or Solicitors' General Knowledge examination, and 28 passed the Medical Preliminary examination.

The number of graduates of the University admitted after examination is now as follows Bachelors of Arts (alone), 246, Bachelors of Arts and Bachelors of Science, 5, Bachelors of Arts and Bachelors of Laws, 10, Bachelors of Arts and Bachelors of Medicine and Surgery, 3, Bachelors of Science (alone), 5, Bachelors of Laws (alone), 8, Bachelors of Medicine and Surgery (alone), 17, Masters of Arts (alone), 135, Masters of Arts and Bachelors of Science, 14, Masters of Arts and Bachelors of Laws, 9, Master of Arts and Bachelor of Medicine and Surgery, 1, Master of Arts and Doctor of Science, 1, Masters of Arts and Doctors of Laws, 2, Doctor of Laws (alone), 1, Doctor of Laws and Bachelor of Arts, 1, Doctors of Medicine (alone), 4 total, 462.

The Senate has this year made complete provision for the details of a curriculum in Agriculture, and students who successfully complete a course in Mechanical, Civil, or Mining Engineering, or in Agriculture, may now be admitted to the degree of Bachelor of Science in any of these professional branches. It may therefore be now said that university instruction and graduation in the highest departments of technical education are brought within the reach of any colonist in New Zealand who desires to avail himself of them.

Further, the Senate has endeavoured to meet, as far as seems consistent with the maintenance of a proper standard of university work, the needs of those who, from the circumstances of the colony, are debarred from the privilege of regular attendance at a college. With this view, provision has been made whereby such persons may obtain university certificates of proficiency in any subject which they desire to take up for examination, without attendance at college lectures.

29th April, 1895.

JAMES HECTOR, Chancellor

ACCOUNTS AND BALANCE-SHEETS, YEAR ENDING 31st DECEMBER, 1894.

[Summarised from full details in the original.]
