References: 1:20,000 maps: Pointe de Lugo, Nos. 5-6, San Remo, Nos. 1-2 and Menton, Nos. 3-4

From Cla. Pegairole the line follows the administrative boundary marked on the map, leaving Cisterne to France, climbs Mt. Simonasso, drops as far as the col and follows the road to Margheria Suan which it leaves in French territory, the chalets remaining in Italian territory.

Continuing to follow the road, left in French territory, it passes to the east of Testa d'Alpe to Fontana dei Draghi, to the springs at point 1406, to point 1297, skirts Colla Sgora on the east, passes the points 1088, 1016, and 1026, crosses the rocky ridge of Mt. Colombin, follows the cantonal boundary shown on the map along Cima di Reglie (846 and 858), departs from this cantonal boundary in a southwesterly direction to follow the ridge of Serra dell'Arpetta (543, 474 and 416) down to the thalweg of the Roya, which it crosses about 200 meters northwest of the bridge of Fanghetto.

The line then ascends the thalweg of Roya to a point situated about 350 meters from the above-mentioned bridge. It leaves the Roya at this point and bears southwest to point 566. From this point it bears west until it meets the ravine descending to Olivetta which it follows as far as the road, leaving the dwellings on this road in Italian territory, mounts the Vle. di Tronto for about 200 meters and then turns towards point 410 as far as the road from Olivetta to San Girolamo. Thence it runs southeast along this road for about 100 meters and then bears generally southwest to point 403, running for about 20 meters along and to the south of the road marked on the map. From point 403, it follows the ridge of Pta. Becche as far as point 379, then again bearing southwest, crosses the Vevera, following the thalweg towards Mt. Mergo which it skirts on the south at about 50 meters from the summit (686), left in French territory, and rejoins the present frontier at a point about 100 meters to the southwest of that summit.
