

Then it mounts to the top of the landslips which overlook Ferrera Cenisio about 300 meters away and, continuing westwards, meets the road which skirts the east of Rne. Paradiso 400 meters west of the loop (1854), leaving it immediately and bending southwards.

It cuts the Bar Cenisia road at a point about 100 meters southeast of Refuge 5, crosses the thalweg in the direction of Lago S. Giorgio, roughly follows contour 1900 as far as point 1907, then skirts the southern side of Lago d'Arpon and rejoins the rocky ridge on which it remains in a south-westerly direction as far as the confluence of the streams coming from the Bard glacier (Ghiacciaio di Bard) at a point approximately 1,400 meters southwest of Lago d'Arpon.

From there, bending southwards, it roughly follows contour 2500, goes as far as point 2579, then, running along contour 2600, it reaches the Lago della Vecchia and rejoins, at the administrative boundary marked on the map about 700 meters southeast of the lake, the Pso. d'Avanza path, which it follows along the rocky escarpments to the old frontier, halfway between the Col della Vecchia and the Col de Clapier.

#### MONT THABOR

Reference: 1:20,000 map: Nevache, 1-2, 5-6 and 7-8

*From Cima de la Planette to Rocher de Guion (Cima del Sueur)*

The new frontier follows a line which leaves the present frontier at Cima de la Planette and, proceeding southwards, follows the ridge through points 2980, 3178, Rca. Bernaude (3228), points 2842, 2780, 2877, Pso. della Gallina (2671), points 2720, 2806 and Pta. Quattro Sorelle (2700).

Descending the eastern slope of this summit, the line leaves in French territory point 2420, whence it rejoins and follows on the east the path leading to the buildings situated about 200 meters from point 2253, this path and these buildings being left in French territory. It then enters a thalweg, passing about 300 meters northeast of point 1915, whence it reaches the northwestern edge of the reservoir which, in the Vallee Etroite (Valle Stretta) feeds the hydro-electric installations of Sette Fontane, leaving this reservoir and these installations in Italian territory. Skirting the reservoir on the south, it reaches the crossroads at point 1499.

Thence it follows the path which hugs the edge of the woods along contour 1500 and which leads it to Comba della Gorgia near the 1580 contour; then it ascends the thalweg towards point 1974 and joins the edge of the rocky escarpments of La Sueur as marked by points 2272, 2268, 2239, 2266, 2267, remaining on this edge until it meets the old frontier, the crest of the rocks and the path bordering it remaining in French territory.

#### CHABERTON

Reference: 1:20,000 map: Briançon, Nos. 3-4

The new frontier follows a line which leaves the old frontier at point 3042 (north of point 3070 and north of Pointe des Trois Scies) and follows the rocky ridge as far as Croce del Vallonetto.

From the Croce del Vallonetto it bends towards the south along the rocky ridge and meets the Chaberton road at the point where the latter enters the *cirque* of the Clot des Mortç.

Crossing this road and the thalweg which borders it, the line roughly follows, for 1250 meters, contour 2300 which, on the ground, follows to the southeast a series of rocky outcrops and debris, then it cuts straight across the eastern slope of Mt. Chaberton, reaches a point about 400 meters west of point 2160 leaving in French territory the intermediate pylon of the cable railway which stands there.
