NOTE.—The above table is a modification of the previous Table Q 2 in which was shown the numbers of pupils leaving classified only according to the year of the post-primary course in which they were engaged at the time of leaving. As the table now stands, Section A gives the status of pupils at time of leaving, and Section B the actual year of attendance at post-primary schools at time of leaving.

The approximate average length of post-primary school life of pupils leaving was: secondary schools, 3 years 1 month; combined schools, 2 years 11 months; technical schools, 2 years 4 months; district high schools, 2 years 8 months.
