Mean daily minimum temperature..	74.5° F.	74.7° F.	74.8° F.	74.04° F.	74.2° F.

Normals

Total rainfall	..	112.00 in. (58 years).
Mean daily maximum temperature ..	..	84.8° F. (57 years).
Mean daily minimum temperature ..	..	74.1° F. (57 years).

Since the normals shown for temperature and rainfall are long-term averages, they do not give an accurate idea of typical variations in Samoan weather. The wettest months are those associated with the variable northerly and westerly winds, but the trade-wind season is also a rainy one and rain falls on an average of at least eleven days in each month at this time.
