

5. (a) Except as otherwise provided in this paragraph, where it is necessary for the purposes of paragraph 3 for a Member to convert into its own currency a price expressed in the currency of another country, the conversion rate of exchange to be used shall be based on the par values of the currencies involved, as established pursuant to the Articles of Agreement of the International Monetary Fund or by special exchange agreements entered into pursuant to Article 24 of this Charter.

(b) Where no such par value has been established, the conversion rate shall reflect effectively the current value of such currency in commercial transactions.

(c) The Organization, in agreement with the International Monetary Fund, shall formulate rules governing the conversion by Members of any foreign currency in respect of which multiple rates of exchange are maintained consistently with the Articles of Agreement of the International Monetary Fund. Any Member may apply such rules in respect of such foreign currencies for the purposes of paragraph 3 of this Article as an alternative to the use of par values. Until such rules are adopted by the Organization, any Member may employ, in respect of any such foreign currency, rules of conversion for the purposes of paragraph 3 of this Article which are designed to reflect effectively the value of such foreign currency in commercial transactions.

6. Nothing in this Article shall be construed to require any Member to alter the method of converting currencies for customs purposes which is applicable in its territory on the date of this Charter, if such alteration would have the effect of increasing generally the amounts of duty payable.

7. The bases and methods for determining the value of products subject to duties or other charges or restrictions based upon or regulated in any manner by value should be stable and should be given sufficient publicity to enable traders to estimate, with a reasonable degree of certainty, the value for customs purposes.

Article 36

Formalities connected with Importation and Exportation

1. The Members recognize that all fees and charges of whatever character (other than import and export duties and other than taxes within the purview of Article 18) imposed by governmental authorities on or in connection with importation or exportation should be limited in amount to the approximate cost of services rendered and should not represent an indirect protection to domestic products or a taxation of imports or exports for fiscal purposes. The Members also recognize the need for reducing the number and diversity of such fees and charges, for minimizing the incidence and complexity of import and export formalities, and for decreasing and simplifying import and export documentation requirements.
