## STANDARD MARK

During the year, 164 applications for licences to use the Standard Mark were received from applicants engaged in 8 different industries. Over the same period, 166 licences were issued, bringing the total number granted since 1944 to 1,063. Of these, 61 have been cancelled, in most cases because the licensee has gone out of business. At the close of the year, therefore, there were 1,002 current licences. Table A shows the licences granted during the year, the total licences issued to date, and the industries over which they are distributed:
