

The maximum number of marks was gained in two cases, the average of those who passed being 76.66. (Maximum, 100 ; bare pass, 50.)

The lecturer was in each case Dr. Henry, Police Surgeon, and the examiners different medical men appointed by the Association.

Brothels.

The definition of a "brothel," as provided by section 177 of "The Justices of the Peace Act, 1908," is not satisfactory, and seems to require amending, as it has been held that, according to the present definition, a prostitute can keep a house to which men resort for prostitution with her alone without infringing the Act, and as much mischief can be done in this way as when men and women resort to a house for similar purposes, provision is desirable to meet such cases.

Sly-grog Selling.

With the view of suppressing sly-grog selling in the King-country, I would suggest that the provisions of section 147 of the Licensing Act relating to the sending of liquor into no-license districts be applied to districts proclaimed under section 272. This would compel liquor-dealers to keep a book showing the quantity of liquor ordered, to whom sent, and to notify the Clerk of the Court when sending liquor into the King-country, and it would thus generally assist police in tracing sly-grog sellers.

Offensive Publications.

For some years past there has been a noticeable development in a section of the Press of a type of immoral literature which is totally unfit for publication, and which is a disgrace to the public Press of the Dominion. It consists principally of extracts specially selected from police, Supreme, and Divorce Court proceedings, dealing with divorce and sexual offences, which are commented on with no regard to social consequences.

Drastic legislation seems necessary in order to suppress all such corrupt journalism ; at the same time, care must be exercised to prevent interference with the liberty of the Press.

The New Zealand Police Force.

The following return shows the growth of the Department, the continued increase of the population, and the total number of offences (irrespective of by-law offences) reported, and in which arrests or summonses resulted, each year since 1877, prior to which date each province in the colony had its own Police Force, and reliable data are not available.

Year.	Officers.	Non-Commis- sioned.	Detectives.	Constables.	Total.	Police to Population.	Cost per Inhabit- ant.	Population.	Offences reported.	Offences where Arrests or Sum- monses re- sulted.	Arrests for Drunkenness (included in "Offences reported").
