63 E_{-7} .

high educational value to the students, and at the same time are most interesting and instructive to visitors to the College.

The farm stock has maintained its high level of merit: as an evidence of this I append a list of the prizes gained by the College stock at the Canterbury Agricultural and Pastoral Association's November Show: I championship, I reserve championship, 12 first prizes, 16 second prizes, 3 third prizes, 12 V.H.C. and H.C. tickets.

The farm, with its crops and stock, was inspected by a large gathering of Canterbury farmers, invited to the College in the middle of December, and the opinion was generally expressed that the College was fulfilling its object, in that it was teaching the students the principles of scientific agriculture, and showing how these could be applied to a farm on a commercial basis.

agriculture, and showing how these could be applied to a farm on a commercial basis.

I have, &c., R. E. ALENANDER, Director.

The Hon. the Minister of Education, Wellington.
