$$\frac{\partial}{\partial t} \left(\frac{1}{r^2} \right) = -\frac{2}{r^3} \frac{\partial r}{\partial t} = -\frac{2}{r^3} v_r$$
[illegible]

1. The first of these is the fact that the United States has a large and growing population of people who are not citizens of the United States. This is a result of the large number of people who have immigrated to the United States in recent years, and the fact that many of these people are not naturalized citizens. This is a problem because these people are not entitled to the same rights as citizens, and they are not subject to the same laws. This is a problem for the United States because it is a country of laws, and it is important that all people who live in the United States are subject to the same laws.
