In its report for the year 1918 the Board gave a general review of its work up to the end of that year, and it is unnecessary to repeat those observations here. If, however, the statistics contained in that report are completed to the end of 1919 the result and scope of the Board's work for the past ten years is shown as follows:—

ten years is shown as follows:								
$Table\ BRef$	iormative-	detention	Cases.					
Total number sentenced to reformative detenti	on						. 1.	288
Released on recommendation of Board						920	,	
Discharged from reformatories on completion of	of full ser	ntence				49		
Died while undergoing sentence						18		
Remaining in reformatories on 31st December,	1919					301		
, and the second		• •	, ,	•			1.	288
Total number released as above								969
Of whom there were—								
Returned to reformatories for non-cor	npliance	with con	ditions of	release		52		
Returned to reformatories for further			• •			51		
Returned for offences committed afte					ro-			
bation						80
