

## STAFFS OF PRIMARY SCHOOLS.

(Table E1.)

The number of teachers employed in the primary departments of public schools in 1920 was 5,755, as compared with 5,626 in 1919. Of the total number, 5,175 were adult teachers (1,675 males and 3,500 females) and 580 were pupil-teachers (114 males and 466 females). The increase in numbers took place in the adult staff, there being 69 more male teachers and 106 more female teachers than in 1919. There were 46 fewer pupil-teachers than in the previous year, but this decrease was more than compensated for in the increased number of probationers. In addition to the staff of adult teachers and pupil-teachers 580 probationers were employed—144 more than in 1919. Of the total, 95 were males and 485 were females, the number of males having increased by 50 per cent.

The following table shows the number of adult teachers in each grade of school classified under the headings of sole, head, or assistant teachers :—
