TE ANAU—MILFORD TRACK.

The number of visitors who have done the walk to the Sounds is well ahead of all other seasons. There have been visitors from England, America, Australia, China, and other countries.

Accommodation.—At Sandfly Point there are now very good new huts erected, filling a long-felt want. One hut is built to accommodate twenty-four ladies, is 14 ft. wide and 40 ft. in length, is divided into two rooms, and has given satisfaction to all who have been in it. There is also a large dining-room, 12 ft. by 24 ft., to accommodate all at one time, it having two large tables, which has given satisfaction to all the visitors during the season.

Telephone Communication.—The telephone-wire has been erected through from Glade House to Sutherland's, and is greatly appreciated.

The track on the whole from end to end is in good order. Wherever required new culverts have been put in.
