WARRANT OF APPOINTMENT AND ORDER OF REFERENCE	PAGE 1
REPORT :—	
Part 1—Preliminary	4
Part 2—Opening of Sittings	4
Part 3—Legal Assistance	4
Part 4—Reporting	4
Part 5—Length of Sitting	5
Part 6—Number of Witnesses; Form of Evidence	5
Part 7—Status of Engineering Reports	5
Part 8—Brief History of Port and its Present State	6
Part 9—Physical Features of District and Natural Forces arising therefrom.. .. .	13
Physical Features	13
River Action	13
Artesian Water-supply	13
Littoral Features	13
Natural Forces; Ocean Currents	14
Littoral Drift	14
Sea and Wave Drift	14
Tidal Currents in and out of Lagoons	14
Part 10—Development, in various Reports of Theories based on those Physical Features and Natural Forces in Relation to Harbour-construction	15
Littoral Drift	15
Shingle Drift	15
Sand Drift	16
Our Conclusions on the Question of Sand Drift	17
Part 11 (a)—A Brief Description of the Breakwater Harbour	19
(a) As to Locality	19
(b) As to Constructional Details	19
(c) As to Relation to Existing Transport Facilities and Termini	19
Part 11 (b)—A Brief Description of the Inner Harbour	20
(a) As to Locality	20
(b) As to Constructional Details	20
(c) As to Relation to Existing Transport Facilities and Termini	20
Part 11 (c)—The Roadstead	20
Part 12—Is it practicable (in view of Reports and our Investigations) to construct a Harbour suitable for the Requirements of the Napier Harbour Rating District as at present constituted at the Inner Harbour and at the Breakwater?	22
(a) Inner Harbour	22
(b) Breakwater	23
Part 13—If so, which is to be recommended as providing the Best and most Suitable Harbour from an Engineering, Navigational, and Economic Point of View?	23
Inner Harbour or Breakwater Harbour from an Engineering Point of View	24
Dredging	25
Inner and Breakwater Harbours from the Navigational Point of View	26
Breakwater Harbour from Navigational Standpoint	27
Summary of Evidence	27
Use of Tug	27
Inner or Breakwater Harbour from Economic Point of View	27
Economic Conditions as affecting Inner and Outer Harbour Development	30
Part 14—Can the Expenditure of the Money necessary to construct the Recommended Harbour (taking into Account the Amount already expended) be justified from the Financial and Economic Aspect?	31
(1) Economic Survey of the Trade, Industry, and Resources of Hawke's Bay	32
(2) Exports	32
(3) Comparison with other Ports	32
(4) Exports, Potential—	
(a) Dairy-products	33
(b) Hemp	34
(5) Imports	34
(6) Industrial	34
(7) Past Shipping Records	34
(8) General	36
(9) Economic Conclusion	36
(10) Analysis of Financial Position	36
(11) Fixed Assets	37
(12) Cash Assets	37
(13) Liabilities	37
