NOTE.—Butterfat receipts denote only that proportion of cream cheques which are assigned to the Department in repayment of advances and interest due thereon. On settled schemes the policy is to accept an assignment of one-third of the unit's monthly milk cheques, leaving the balance for maintenance and living expenses. On those dairying schemes which have not yet been individualized the full amount received for butterfat is retained, the workers being paid wages, but in the majority of cases a proportion only of the cream returns is actually paid to the Department.
