			38,243,000	
Estimated surplus			£17,000	

In conclusion I would say that we have already made much progress in improving the general standard of living. Given the continued co-operation and whole-hearted support of the people we can so increase production as will enable us to consolidate our position on a sound economic basis. With this as a starting-point we will move forward to even higher standards in the future.
