

CRICKET.

WYNDHAM v. L.C.C.

Wyndham, first innings 77; second, 29 three wickets.
 Wyndham, first innings 50; second, 84. Wyndham won by seven wickets.
 L.C.C., with two wickets down for 12, resumed batting in their second innings. Bell 3 and Camm 0 finishing as they began, Dan McBeath skittling them. Ferson 14 showed some beginnings of play and Doig 15, fell to D. and H. McBeath respectively. The rest of the team led to make 10 among them. Extras 2, Dows well for Bogue. D. McBeath took six 25 and H. McBeath 3 for 21. Wyndham sent in Dr. Baird 9 and H. McBeath Doig getting the two of them, as he Bogue for a single. Dan McBeath de the 9 necessary with a not-out. Ferson 0 was a good office for James Giltson. Doig bowled with a good length, and is rapidly getting into physical form. Wyndham had only 21 runs to make, or might have caused them more anxiety. All men show the need of steady action on true wickets. The divided holidays, Wednesday and Saturday, are dividing half-senior teams into the field, and it is doubtful whether the two days' match is going to prove a benefit. With Wyndham he visited two Wednesday's in succession, the already not over-keen eleven will find it hard to form sides to finish the match.

UNION v. APPLEBY.

Union, first innings 81; second, 50.
 Appleby, first innings 105; second, 30 three wickets. Appleby won by seven wickets.
 Richards opened the batting for the second day with 11 to his credit but fell Petrie from a catch when he had added 13 proving his unlucky number. Ferson, 19, batted with some style and was promise of representative form. The bowling was not so weak as the batting and the fielding was passable, with Leggett good behind the sticks—only 1 extra 50 being an excellent performance. Lack of practice stood out glaringly. Appleby sent in Cook 16, thrown out, and Dale 6, not out. The latter and Petrie made the required number.

THE MISSING CHILD.

Though further searches have been made for Mr E. Paul's child, who disappeared from his father's home on Saturday, November 13, no trace so far has been found of the little fellow (says the "Winton Record"). The bush has been thoroughly coured and the open country and gullies traversed from end to end. It is thought that the wee fellow may have climbed a tree bird-nesting and got caught in the branches or fallen from a tree into the thick fern. He may also have wandered to the Winton creek, some distance away, and fallen in. At that time the creek was in high flood as a result of the steady rainfall. One day no less than 150 residents searched the bush from daylight till dark, and almost daily parties have been out in hope of finding the child. Of course if the child wandered towards the swollen creek and fell in, the body may never be recovered, or at least not until the stream falls below normal. A huge search party is being organised by the police for Sunday next to make another big effort to find the missing boy, Stanley Paul. Searchers are asked to meet at Mr Nicholson's, Devereaux road, and at Mr E. Paul's at 9 a.m. that day. Very great sympathy prevails for Mr Paul who, not long since, had the misfortune to lose his wife.

Napery in endless variety. It is pleasing to see such a large and varied stock in many new designs. Special display in Manchester Department all on sale at these keen prices. F. BURWELL,
Town Clerk.

Town Hall, November 17, 1920. 3299

NEWS IN BRIEF

The Government steamer Tutankai has to search for the missing schooner Jubilee.

The second trial of Thorn, charged with the Pukeawa murder, is fixed for November 29.

The British Government has arranged to send large reinforcements to Ireland if necessary.

It is stated that the British and French Governments have agreed to help Austria regain her feet.

There has been an epidemic of murders in Ireland. Officials who are responsible for the administration of justice were the principle victims.

While the disastrous fire was raging in the Crescent an enterprising land agent was busy trying to let offices.

The Miners' Federation are demanding a 25 per cent. increase in rates of pay dating back to November 1st.

The Southland Electric Power Board have decided to rate on the unimproved value.

Mr A. W. Rodger was re-appointed chairman of the Power Board at a salary of £1000 per annum.

The steamer Waihora, after waiting seven weeks for cargo, sailed with six thousand tons of Vancouver Island coal for New Zealand. The Government stated that it was improbable any further coal shipments would be made to New Zealand.

RATEPAYERS OF INVERCARGILL.

CONSIDER WELL THE REASONS WHY YOU MUST VOTE FOR THE LOANS NEXT WEDNESDAY.

NO 1—GASWORKS LOAN, £25,000.

VOTE FOR THIS LOAN BECAUSE:

The cost of coal, material and wages has shown a substantial increase during the past three or four years, and is still increasing, and it is therefore essential to effect economies by improved methods of manufacture, and by the installation of up-to-date machinery.

The use of Vertical Retorts will enable us to save over £4000 per annum, which will obviate the necessity to further increase the price of gas, and will, it is expected, enable the Council to transfer a substantial sum out of profits in relief of rates.

The carrying of the loan will certainly not involve any increase in Borough rates.

NO. 2—WAR MEMORIAL LOAN, £15,000.

VOTE FOR THIS LOAN BECAUSE:

The splendid services of the brave lads who fell in the cause of freedom should be suitably commemorated.

This can best be done by some striking monument which will speak to generations yet to come of the sacrifices made by their ancestors.

Voluntary contributions are not debarrd. These can be utilised either to supplement the Loan or to reduce the amount of it as circumstances may require.

Contribution by rating has the advantages of being easily and inexpensively collected, of not falling heavily upon anyone, and also of being fair, as it will be borne by ratepayers in proportion to their landed property.

Although the authority asked for is £15,000, the whole of this amount will not be raised or spent unless in the opinion of the Council it is judicious to do so.

NO 3—ELECTRICITY LOAN, £50,000.

VOTE FOR THIS LOAN BECAUSE:

The Electricity Department is a Trading Department, and although only partly developed shows a substantial yearly profit.

Further capital (loan money) is required for general development, to meet the increasing demand for electric current.

Increased turnover in this Department will mean more profits to the Borough and lower charges to the consumer.

The Department is a paying one, and there will be no increase in the rates if the loan is authorised. On the contrary, it is hoped that they may be reduced.

NO. 4—ROADWAYS LOAN, £80,000.

VOTE FOR THIS LOAN BECAUSE:

Good Borough roads are a necessity, not a luxury.

The average annual increase in rates over 30 years will be comparatively trifling.

It will be an immense boon to all users of motor cars, bicycles and all other vehicles, who will save heavy bills for tyres and repairs.

Motorists will be asked to make an annual contribution towards upkeep and interest as soon as the Borough Council can obtain the necessary legislative authority. This will be used in relief of rates.

Tarred macadam roads will mean the minimising of the dust nuisance, which causes heavy annual losses to many business people.

NO. 5—TRAMWAYS LOAN, £25,000.

VOTE FOR THIS LOAN BECAUSE:

The ever-increasing demands for a more frequent and better service cannot be given without further capital expenditure.

The new Government regulations compel us to have more trams to carry on even the present service.

The Tramway Department, although its development has been greatly hampered during the War, has more than come up to expectations and fully justified its existence.

The Tramway service has reached the stage where it cannot remain. By being further developed it will go forward and improve, but if left, it will go back and be a continual drag on our rates.

The expenditure of £25,000 in the Tramway Department has the approval of the Engineer, the Traffic Manager, and the Tramways Committee as being a thoroughly sound business proposition, and if not sanctioned by the ratepayers, it will mean a serious set-back to the Department.

NO. 6—SEWERAGE LOAN, £50,000.

VOTE FOR THIS LOAN BECAUSE:

The money borrowed previously is insufficient to complete the work, owing to the tremendous rise in cost of labour and material. It is only fair that every ratepayer in the Borough should have an equal opportunity with those whose properties are already sewered of installing this desirable system of sanitation.

NO. 7—RECLAMATION LOAN, £1500.

VOTE FOR THIS LOAN BECAUSE:

This loan is necessary to provide material for the erection of the Eastern Wall now being carried out by the Prisons Department.

The enclosed land, being immediately adjacent to Invercargill, should prove a great asset to the Town, and recognising this, you will have no hesitation in voting in favour of this loan proposal.

FOR QUALITY, Combined with Low Prices IN BOYS' WEAR SEE "THE EXHIBITION" STOCKS.

FOR SATISFACTORY WEAR IN BOYS' SUITS YOU MUST GET ONES MADE OF GOOD MATERIALS. THE TWEED SUITS MENTIONED HERE ARE ALL MADE OF RELIABLE N.Z. ALL-WOOL TWEEDS AND IN EVERY CASE WILL GIVE YOU FULL VALUE FOR YOUR MONEY.
